Buried: *Hosszú-Láz temető*, utca Hosszú-Láz, Sátoraljaújhely

Issue: Born/Bapt: Where:

1. **JÁNOS PÉTER UNTENER** **25 August 1794** Hosszú-Láz, Zemplén megye, Hungary

KATARINA's surname may have been PIRONG, however PIRÓK is clearly written on some documents. There appears only one entry in an online index to Roman Catholic Baptismal Registers for all of Zemplén megye and that occurred in Tállya, a small village several miles southwest of Sátoraljaújhely: CATHARINE PIRÓK, daughter of JOANNES PIRÓK and ANNA GONDÁS, was baptized on 14 October 1783; this, assuming an infant baptism, can not be our ancestor. At the time of her death she is listed as being 65 years old. JÓZSEF is listed as a settler or farmer on his death certificate. His age is given as 86 years old. Burials in the cemetery at Hosszú-Láz are an assumption on this writer's part; that information does not appear on the death certificates.

Issue:

1. JÁNOS PÉTER UNTENER: baptized by KÁPLÁN ANTON SCHON. The record is in Latin and gives his name as *JOANES PETRUS UNTENER*. Witnesses were JÁNOS SMALIEN and ANGELINO LAWTEBONN. There is a notation next to his entry in the baptismal register that states he was married on 29 June 1854; the actual date is believed to be 25 May 1854 but that could be the date the license to marry was issued.

Notes:

The online index to baptisms is full of errors and, with this consideration, the following is recorded in case the Catherine appearing therein is our ancestor. ANNA GONDÁS, probably her mother, was baptized in Tállya on 17 September 1763. She was the daughter of JÁNOS GONDÁS and HELENA HALÁSZ. ANNA may have been a twin sister of EVA GONDÁS who was baptized in the same place on the same date with the same parents.
